## DM200-DVD

### Playable DVD Disc Maker for Camcorders and High-Res Cameras

Hi-speed Standalone Portable DVD Burner for Burning Videos/Photos into A Playable DVD Disc with NO PC NEEDED!

#### Features

- Record video / photo files directly from camcorders and digital cameras via USB connection with NO PC NEED!
- The recorded DVD / CD disc can be directly played back on the regular Blu-ray Disc players
- Keep the video resolution and photo image quality at the same level as their original data source with no distortion or downgrade
- Hi-speed file transfer performance much faster than the real time recording from A/V ports
- Offload large video files to free up the capacity in the camcorders or cameras
- Advanced Disc Spanning feature prompts additional discs automatically when source data larger than target disc in capacity is detected, which allows data file to span over multiple discs
- Designed to support the latest models of high-res cameras, Camcorders, and BD players available in the market
- Two built-in card reader slots (CF Type I/II and Multiple Card Slot) with full compatibility to support most major memory card formats
- Fast and reliable data recording from memory cards or USB devices to DVD / CD
- User Friendly Interface: Graphic LCD display with backlit

### Record, Share & PlayBack Digital Video / Photo Instantly by Making A Playable DVD / CD Disc
