Cable Management

NEX1's cable management helps keep cable paths organized and easier to follow. Simply insert each cable into one of the patented split rings, fixing it to either front or back of the rack, you have got a perfectly organized wiring system.

Features:

- Patented tilted rings designed for easy go through
- Eliminates tangled cable even behind racks
- Manages cable on front and rear of telecommunication racks (5 rings in front and 4 rings in rear/1U; 9 rings in front and 9 rings in rear)
- Helps maintain cable bend radius
- Individual detachable rings for combination flexibility
- Available in both 1U and 2U models

Physical Specifications

- ◆ Mount to standard EIA 19" racks
- ◆ Individual detachable rings for flexible combination
- ◆ Standard rack mount 19-inch-wide rolled-edge steel for extra strength and durability

Part Number	Description	Std. Pkg. Qty.
NCM	Horizontal cable management panel with patented tilted ring (1U); 5 rings in front and 4 rings in rear	1
NCM-2	Horizontal cable management panel with patented tilted ring (2 U); 9 rings in front and 9 rings in rear	1

◆ *Dimensions:*

Part Number	Size	Number of Rings
NCM	4.45 cm (H) x 48.3 cm (W) x 10 cm (D) (1.8" x 19" x 1.6")	5 rings in front and 4 rings in rear
NCM-2	8.9 cm (H) x 48.3 cm (W) x 10 cm (D) (3.6" x 19" x 1.6")	9 rings in front and 9 rings in rear
