## Cable Testers

NEX1's multi-network, multi-modular cable testers' LEDs immediately alert you to short, open, reversals and miswires at a glance. The lightweight, rugged, impact-resistant units come with a leather carrying case.

### Features:

- Verifies wire continuity, wire missing and polarization
- Splits into master and remote units for testing patch cords or premise cabling
- Tests cables before or after the cables are installed
- Operated with (1) 9-V alkaline battery

### Applications

- ◆ Thin Ethernet (BNC/TNC)
- ◆ 10Base-T (UTP/STP)
- ◆ 356A
- ◆ AT & T 258A
- ◆ TIA 568 A/B
- ◆ Token Ring
- ◆ USOC 4/6/8 modular cable

### ◆ Cable Testers

Part Number	Description	Std. Pkg. Qty.
